Rick & Alice: Kelly said she can take them on Saturday. Problem solved.

Rick,

It is still uncertain, so we need to keep it a possibility. As you and I discussed earlier, we have removed

the U and Th from the modified analysis request because time will not allow. We have maintained the other modifications to their SOW, for consistency with 6020A. CLP will send that MA out now for bids today. I have asked for a timeline re: returning bids and then shipping (waiting for a response). I will let you know what I learn.

For confirmation, the samples are ready to ship with all requirements included?

Thanks,  
Alice

Subject: Pavillion samples to be shipped

Alice - is it likely that the samples will need to be shipped on Saturday, or are we still uncertain?

If so, we would need to go to Norman for a Saturday shipment.

Steve - I cannot lose the time on Saturday driving up to and back to Norman. I'll be working here, so we may have to find someone willing to make the trip, can you help?

Thanks,  
Rick
